The Event is organised by the Research Promotion Foundation of Cyprus in cooperation with the Enterprise Europe Network and one of the main topics of focus during the Brokerage Event is Information and Communication Technologies.

The Brokerage Event has been designed to complement the EastWest 2012 Congress and Exhibition, offering visitors the opportunity to attend meetings with potential partners, customers and suppliers.

A specially designed meeting space will be reserved within the Congress venue, where bilateral meetings of 30-min duration will take place. All meetings will be pre-arranged with the support of the event organizers and participants will be informed on their personal meeting schedule 7 days prior to the event.

Companies, universities and research institutes with activities in the ICT, Energy and Environment and Service sectors, are invited to use this opportunity to establish new cross-border contacts for future research, commercial and technological collaboration.
